

## WHAT YOU DO

Choose your method of destruction ... and RELAX!

## WHAT WE DO

### COLLECTION

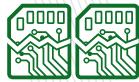

Your selected method is implemented. We'll pick up, provide secure data destruction collection containers for your use, you can drop off at any of our recycling centers, or we'll help you host a community collection event.

### PROCESSING

We create an inventory list and secure your data. We can perform services at your location or our ISO-compliant facility; either way, you can witness the drive destruction.

### DRIVE DESTRUCTION

**SHREDDING** – The physical destruction of both magnetic and solid-state drives (100% effective).

### DRIVE PURGING

**DEGAUSSING** – Uses magnetic disruption from a degausser to make the drive useless (100% effective).

### CERTIFICATION

We log the individual serial number or lot, and we issue certificates of destruction, upon request.

## WHAT YOU DO

Receive a certificate of destruction.  
**BE ABSOLUTELY CERTAIN. SLEEP WELL.**
